

A New Council For Swindon?

Recommendations

Review Panel

The independent Review Panel is asked to consider and weigh the results of the consultation exercise taking into account the guidance on reaching a judgement by the former Department of the Environment, Transport and the Regions.

Recommendations

It is recommended that Swindon Council should, in accordance with the Local Government Act 2000, adopt a new constitution based on the Leader and Cabinet model and that this report, together with its associated submission report (a draft of this Part B report is attached), and the interim constitution document(s) be forwarded to the Department of Transport, Local Government and the Regions for endorsement.
